DON CAMPBELL AND TEAM VCA WIN THE U.S. NATIONAL VIPER CHAMPIONSHIP

Campbell, CA (October 29, 2001) – A few months ago, Northern California VCA member Don Campbell won the Western U.S Viper Championship. That win advanced Campbell to the finals in Detroit, Michigan. Once in Detroit, Campbell and Team VCA won the U.S. National Viper Championship.

“Thanks to Dodge for building such a phenomenal car, the Viper,” said driver Don Campbell.

“Competing against the best drivers from the five regions in the U.S., as well as Team PVO, was very challenging. Being here in Detroit, racing a true American muscle car made only a few miles away, was very special. I am very excited to have been on the winning team and secure the National Championship for the VCA.”

The Viper Club of America came up with idea of having regional driving competitions throughout the U.S. The top two finishing drivers from each of the five regions across the U.S. would qualify to go to Detroit, Michigan. Don Campbell (Campbell, CA) and second place driver Dave Dunlap (Livermore, CA) anxiously made the long trip to Detroit. Campbell and Dunlap were the fastest regional pair of drivers in the U.S. In a separate competition, the two drivers teamed up along with the other top eight finishers for the U.S. National Viper Championship. Team VCA won a very close and hard fought battle over Team PVO to see who really were the fastest drivers in the country.
